## ABSTRACT OF THE DISCLOSURE

A pattern card has a base material being composed of a paper sheet and a
color texture layer printed on the paper sheet. A wax layer is formed on the base
material. A protection printing ink is coated on the wax layer. A picture printing
ink is partially coated on the protection printing ink according to a designed
picture's profile and contour. The protection printing ink and the picture can be
mixed with wax in the proportion of 10%. Whereby, it is easy to remove the
protection and picture printing ink by a drawknife, and a pattern or picture with a
three-dimensional effect appears.
